How many trees would you like? (Limit of 2; \$95.00 each for professional delivery and installation required)

One Tree Two Trees Cost of delivery & install (before tax): \$ _____

What Species of Tree Would You Like? (Please select no more than 2 total)

- Douglas Fir Fraser Fir Corkbark Fir Englemann Spruce Serbian Spruce
- White Pine Austrian Pine River Birch Green Ash

Approximately where would you like the tree(s) planted on your property?

**Please keep in mind that the price is contingent upon there being reasonably easy access to plant each tree. Example: in the front yard; not up/down a hillside; etc.*

Do you have proper irrigation access for the newly planted trees?

**Only trees with proper irrigation will be covered under warranty for the first year after planting.*

I have/will have drip irrigation for trees I have hose access and will hand-water trees

I understand that because the trees Greenleaf Landscaping has available for the City of Spokane's Forest Spokane Residential Tree Program are more mature and larger in size, it is required that they be delivered and planted professionally in the fall to ensure that they thrive in their new home. The cost of each tree delivered and installed is \$95.00 each (before tax). In order to ensure that these mature trees remain healthy after they are planted, it is also required that they have designated irrigation in place (required for warranty of tree). I also understand that the price per tree listed above is contingent upon there being reasonably easy access to plant each tree (ex. front yard location, not up/down a hillside, etc.). If there is not reasonably easy access on the day of planting, there will be an additional hourly charge to complete the work (\$45.00 per hour). I also understand that a utilities locate may be required before Greenleaf can plant the trees; this will result in an additional charge of \$15.00 (one locate covers all trees that are delivered and planted on same day) that I be responsible to pay.
